-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of applicant's Information Disclosure Statement filed 10/21/2002.

Claim Objections

1. Claims 5-15 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Ouali et al. (USPN 6,183,779 B1).

4. Ouali et al. discloses a pharmaceutical composition for oral administration of a non-steroidal anti-inflammatory drug (NSAID), a prostaglandin, specifically misoprostol,

Art Unit: 1615

and excipients including hydroxypropyl methylcellulose (abstract). Ouali et al. also discloses that the NSAID granules are enterically coated and inherently, impart a delayed release (column 8, lines 3-6 and column 3, lines 37-41). These disclosures render the claims anticipated.

5. Though the reference is silent to the dimensions of the granules, it is the position of the examiner that the claimed dimensions in claims 2 and 3 do not impart patentability against the prior art. The claimed invention would not perform differently than the prior art device; therefore the claimed invention is not patentably distinct from the prior art device. The reference anticipates the claims.

Conclusion

6. All claims have been rejected, no claims are allowed.
